

Honors Colloquium

Find out what the **cryosphere**, or the frozen waters of the Earth, can tell us about past climate change and what current climate change will mean to the cryosphere.

**Feb. 24,
2006**

with **Dr. Ellen Mosley-Thompson**, Professor in the Department of Geography (Climatology) and Senior Research Scientist at the Byrd Polar Research Center, The Ohio State University

Unique Insights to the Earth's Climate History Preserved in Its Cryosphere

Dr. Mosley-Thompson on campus Friday, February 24, 2006

Honors Colloquium

Unique Insights to the Earth's Climate History Preserved in its Cryosphere

12:30-1:30 p.m., Science 100

Women in Science meeting

2:45-3:45 p.m., Science 271

For information, contact Dr. Sabine Jeschonnek at (419) 995-8201.

Honors Book Seminar

The Long Summer by Brian Fagan

4 p.m., Science 380

For information, contact Dr. William Ackerman at (419) 995-8329.
