Arts Integration for the Classroom (K-12)

1 Graduate or Undergraduate Credit Course
The Ohio State University at Lima

Through this course you will experience both the pedagogical and personal value of integrating arts into your classroom curricular areas such as: language arts, science, math and social studies.

During our two sessions, you will be exposed to multiple approaches on how the arts (drama, dance, music and visual arts) can foster greater comprehension and application of various subjects within multiple disciplines.

Arts integration goes beyond including art projects in class; it is a teaching strategy that merges the arts with core curricula to build connections and provide engaging context.
